Subject: ATSDR Dimock emergency response AROA moving closer to clearance

Thank you for the comments we've received from EPA R3 so far. I think we are in good shape. If any one else wants to share any further feedback prior to finalization, please let me know as soon as possible. My best estimate for a target release date (and we all know I can be very wrong on that front) at this time is Tues or Wed of next week.

Lora

Lora Siegmann Werner, ATSDR/CDC Region 3
